OBJECTIVE

Highly motivated and detail-oriented cybersecurity professional with a robust foundation in core security principles and practical applications. Eager to apply technical expertise and a proactive approach to threat intelligence to safeguard organizational assets and contribute to a secure digital environment.

EDUCATION

CT University, Punjab **(2022 – 2026)**

Bachelor of Technology - Computer Science Engineering with Cyber Security and Forensics

CGPA : 7.68

SKILLS

Cybersecurity	**:** Linux (Kali Linux & Ubuntu), Ethical Hacking, Network Security, Vulnerability Assessment (Nessus/OpenVAS), SIEM & Log Analysis, IAM, Cloud Computing, Information Security, Networking (TCP/IP, VPN), Guardium
Programming	**:** Python, HTML, Java, CSS, React JS, SQL Lite
Tools	**:** VS Code, VM Ware, Nmap, Wireshark, Burp Suite, Jupyter, Google Colab, GitHub

EXPERIENCE

Cybersecurity Intern | Skillogic Pvt. Ltd. **(Jan 2026 – Jun 2026)**

- Assisted in monitoring network traffic, identifying security threats, and performing vulnerability assessments using tools such as Wireshark, Nmap, and Nessus, OpenVAS.

Cybersecurity Internship | Skill forge **(Jun 2024 – Aug 2024)**

- Conducted a comprehensive vulnerability assessment of web applications, identifying and documenting potential security flaws.

PROJECTS

API Security Testing Tool

- Developed an API Security Testing Tool using Python to identify common API vulnerabilities, including broken authentication, insecure endpoints, and improper input validation, following OWASP API Security Top 10 guidelines.
- Performed automated security testing using Postman, Burp Suite, and REST APIs, generating vulnerability reports to help improve API security and support secure application development.

Network Attack Simulation

- Designed and executed a simulated phishing campaign to assess organizational susceptibility to social engineering, evaluating user awareness and the effectiveness of existing security controls.
- Technologies: Kali Linux, Social Engineering Toolkit (SET), Phishing Frameworks

CERTIFICATIONS

- Introduction to Cyber Security
- Basics of Computer Networking
- Cyber Security – On the Offence, On the Defence
- Cyber Security Internship Certificate – Digit Defence

ACHIEVEMENTS

- Participated in the All India Universities Volleyball Championship, demonstrating national-level.
- Two-time Gold Medalist in CT University Inter-University Volleyball competition.
